

## **Declaration on the Absence of PFAS in Our Processes**

We hereby confirm that no per- and polyfluoroalkyl substances (PFAS) are used in our operations or in any of our production processes at Otto Brenscheidt GmbH & Co. KG.

All materials, auxiliary substances, and manufacturing processes used in our company have been carefully reviewed. We can confirm that no PFAS-containing substances are used or present in our products.

We place great importance on environmental responsibility, product safety, and sustainability, and we comply with all applicable legal regulations as well as our internal quality standards.

Should there be any future changes to the materials or processes used, we will reassess them for PFAS content and promptly inform our customers if necessary.
